

ATTACHMENT A: Funding Reduction Concurrence (FRC) FORM

The purpose of this FRC form is to demonstrate an IPPA’s or SSA’s willingness and ability to complete a project or study with a lesser amount than the amount requested in its application (“partial funding”), in order for the project or study to be recommended in a Stormwater Investment Plan for partial funding. The partial funding award must not negatively impact the score achieved by the initial application or result in any changes to the project’s or study’s scope or benefits as identified in the application and submitted Feasibility Study, if applicable. The IPPA or SSA is required to submit a FRC form to facilitate the partial funding process.

Project/Study Name	La Mirada Creek Park
Project/Study Lead	Mark Stowell, Dir of Public Works/ City Engineer
Watershed Area(s)	Lower San Gabriel River Watershed

Brief description of why and how the funding request included in the application is being reduced (e.g. Project or Study will be phased, more information has become available, additional leveraged funding was secured, etc.):

Funding request for this project is not being reduced, however, there appears to be an error in the original application that needs to be clarified.

The original application mistakenly identified the cost for the planning and design phases of the project as being included in the request for the grant. The costs for the planning phase were incurred from January 2017 to June 2018 and should be ineligible for grant funding. The City of La Mirada will cover the cost of the Planning and Design phases and request grant funding for construction only.

The application requests funding in following manner

Construction: \$6,760,200 - January 2024 to December 2025

Cost Share
 Funding: \$1,008,000 - City of La Mirada Agreement and Cal DOT

Total Funding Request after Cost Share Funding:
 \$6,760,200 - \$1,008,000 = \$5,752,200

SCW Program

Programming of Partial Funding

Revised Eligible Expenditure Projections:

Funding Year	Fiscal Year	Amount	Description/Phase
1	2024 - 2025	\$6,760,200	Construction - Project Construction
2			
3			
4			
5			
Future Funding		\$1,008,000	
TOTAL		\$5,752,200	

A: Total Original SCW Funding Request	\$6,760,200
B: Total Revised SCW Funding Award	\$5,752,200
C: Shortfall (A-B)	\$1,008,000

Compensation plan for shortfall – Include evidence of the status (must be assurance of timely secured funds for WASC to consider partial funding award) and amount of each additional funding source to ensure completion of all activities proposed in the application and submitted Feasibility Study, if applicable (cost share, grants, SCW Municipal Program funds, subsequent SCW funding request, etc.). Reliance on subsequent Regional Program funding is not a guarantee and is therefore discouraged. Also, include description of the which elements will be funded by this SCW funding request and by funds outside this SCW funding request to demonstrate all elements are funded. For phased projects or studies, provide information on additional funding sources to complete all activities proposed in the phased scope of work (if any).

This is not a shortfall in funding. The total funding request is being revised down from \$6,760,200 to \$5,752,200

If applicable, provide a description and justification of any de minimis scope changes that will maintain or increase the Project Score or improve the Scientific Study. De minimis scope changes should be within the parameters and design of the project or study scope identified in the submitted Feasibility Study or Scientific Study application and any associated additional cost, in addition to the shortfall from the original request, must be covered by other non-SCWP funds.

Not applicable

I confirm that partial funding award will not negatively impact the achieved score or result in changes to Project or Study scope or benefits provided as described in the application and submitted Feasibility Study, if applicable. YES

If Project or Study is to be considered in phases, I understand that funding for future phases is not guaranteed, and that submission of a new application is required for funding for future phases not shown in the current SIP, and that annual funding is at the discretion of the WASC, ROC, and ultimately the Board of Supervisors. As such, I understand citing the assumption of additional Regional Program Funds alone is strongly discouraged. If future phases are not funded through the Regional Program, I remain committed to securing additional funding sources to ensure completion of all activities proposed in the application and submitted Feasibility Study such that benefits claimed are fully realized. YES N/A
